EDUCATION

GITAM Deemed to be University - Bachelor of Technology in Computer Science
(2023 – 2027)

CGPA - 7.57/10

SKILLS

- **Languages and Tools :** Python, Java, C, JavaScript
- **Core Competencies:** Database Management Systems, Software Engineering, Object-Oriented Programming, Operating Systems, Computer Networks
- **Web Development:** HTML, CSS, REST API Integration
- **Database:** SQL, MySQL, DBMS
- **AI / Data:** Gemini API, Data Analysis, DSA
- **Cloud & Networking:** AWS (Solution Architecture), Cisco Packet Tracer
- **Tools:** Git, VS Code, Cisco Networking Academy
- **Soft Skills:** Problem-Solving, Analytical & Critical Thinking, Strong Communication, Team Player, Adaptability

INTERSHIP

- **Deloitte (Forage)** - Data Analytics Job Simulation – Hands-on experience analyzing datasets, building dashboards, and presenting data-driven insights. *January 2026*
- **AWS (Forage)** - Solution Architecture Job Simulation – Designed cloud-based solutions using AWS services following architectural best practices. *January 2026*

PROJECTS

Live Crypto Market Analysis Chatbot | Python, Gemini API, REST API, Web Integration

- Built an AI-powered chatbot delivering real-time cryptocurrency market insights by integrating live web data feeds with the Gemini API.
- Implemented technical chart interpretation, pattern recognition, and automated trend analysis to support data-driven trading recommendations.
- Designed a dynamic response pipeline to fetch, process, and serve accurate live market data with AI-generated strategy outputs.

Hospital Management System | Python, MySQL, Full Stack

- Developed a full-stack hospital management application with admin controls, patient registration, login authentication, and appointment booking modules.
- Built secure backend logic in Python with MySQL database connectivity for efficient storage and retrieval of patient and appointment records.
- Automated manual workflows through structured frontend menus, improving operational efficiency and reducing data entry errors.

CERTIFICATES

- Data Analytics Job Simulation — Deloitte (Forage)
- Solution Architecture Job Simulation — AWS (Forage)
- Networking Basics — Cisco Networking Academy (Coursera)
- Introduction to Packet Tracer — Cisco Networking Academy (Coursera)

MEMBERSHIP AND ACHIEVEMENTS

- **24-Hour Internal Smart India Hackathon Participant** – GITAM University *September 2024*
- **Certified in Data Analytics** – Deloitte via Forage *January 2026*
- **AWS Solution Architecture Certified** – Amazon Web Services via Forage *January 2026*
